Notice of Road Closure

Carlysle from Isabelle to Harrison

The City of Inkster has contracted with Inland Waters Pollution Control on a sanitary sewer rehabilitation project in your area. The project is related to rehabilitating sewers and manholes investigated during the State of Michigan Stormwater, Asset Management, and Wastewater (SAW) Grant program completed in 2018-2019.

Open cut construction for partial/full open cut excavation on Carlysle will require the road to be closed during construction. The work is expected to begin on September 12, 2022 and the road should be open on October 7, 2022.

A detour route will be posted on site. Vehicles will be detoured south to Annapolis Avenue for the section of road that will be closed for the duration of the work.

We appreciate your assistance and cooperation during this work.
