# The Inkster Report

## News from the Office of Mayor Patrick Wimberly

Greetings Inkster!

The changing tree colors indicate that the fall season has arrived. It also indicates the reappearance of colder temperatures and the "flu season." This is the time to be mindful of your and others' health.

Inkster is also changing, for the better. To name a few developments--- the **Sidewalk Replacement Section 1 that began in August should be completed by November**. Section 1 is between Henry Ruff & Middlebelt, and Avondale & Cherry Hill. Olson Cement Work Inc. is the contractor.

**Speed Bump Installations begin this month.**

**Bigby Coffee** is coming very soon: to be in the Town Center District on Michigan Avenue next to the new Inkster Civic Arena (ICA), be on the lookout.

The **Senior Wellness Center**, a **\$2.5 million federal grant**, thanks to Congresswoman Tlaib, **is in the process of approval.**

**The construction of the Inkster Historical & Cultural Arts Museum for \$1.2 million from Senator Polehanki is on the way.**

The **restoration & renovation of the abandoned strip mall on Henry Huff Road and Cherry Hill** is underway. Mr. B's Soul Food at 30369 Cherry Hill is open and ready for business.

We're living in very interesting times that include inflation, unemployment and uncertainty on many fronts. Many hold a dark view of the city, state, country and world events. While the concerns are real, we must maintain hope and positivity as we move forward. We do have the power to create an exceptional future. **The operative word is, "WE."** True success comes only with consultation, cooperation and collaboration between people no matter their ethnicity, race, age, religion, political affiliation or personality. If our common goal is to bring Inkster back to its glory and beyond, we **must** work together. No matter who is in charge.

I am proud of what we have achieved, but our motivation must be more than pride. With every ounce of energy and constant prayer we must work together to create a community that can attract private investment, high-paying jobs and talented workers. This includes caring for our neighbors,

elders and the less fortunate.

My philosophy of governing is to inspire, but it is also grounded in the practical. We must do more with less, find ways to use cost-saving measures and innovation to help realize our dreams. We must keep the positive momentum growing. I truly believe Inkster's residents and administration can and will triumph.

Have a healthful and secure fall season. #InksterCleanSafeAccessible.
